

## Dumb Disco Ideas

Holy Ghost!

Cool summer like no other  
I thought you'd pull the first punch by now  
I need water, we need water  
I need something just to wash this down with!

Open the shutter, to let the light out  
Painting by numbers and it's going south  
I need thunder, we need thunder  
I need something from my summer drought!

Shake it off, shake it off  
Don't let that big idea go to waste now!  
Shake it off, shake it off  
Don't let that big idea go to waste now!  
Come on, come on, there's no time to waste now!

Cool summer for cool lovers  
This bodega's got a club in the basement  
I need water, we need water  
We share a taxi with the local native.

Waiting on a big check, playing on a big set  
Painting by numbers and it's going south  
I need water, we need water  
I need something from my summer drought!

Put it off, put it off  
Can't be tomorrow what we had today  
Put it off, put it off  
I got the needle and the record says

Cool summer for fools somewhere  
Double down while the market's high  
I need contact, I need contact  
Undercovers on the edge of the block!

Waiting on a big check, playing on a big set  
Not everything I've done comes out of my mouth  
I need another, I need another  
Just give me something for my summer drought!

Put it off, put it off  
Can't be tomorrow what we had today  
Put it off, put it off  
I got the needle and the record says

Oh, oh, oh  
Oh, oh, oh

Put it off and off  
Put it off, and wait, and wait for another day  
Put it off, at least for another day  
Put it off, and wait, and wait for another day  
Put it off, at least for another day  
Put it off, and wait, and wait for another day  
Put it off, at least for another day  
Put it off, and wait, and wait for another day

Put it off, at least for another day  
Put it off, and wait, and wait for another day  
Put it off, at least for another day  
Put it off, and wait, and wait for another day  
Put it off, at least for another day  
Put it off, and wait, and wait for another day  
Put it off, at least for another day
