

## That Message

Holy Holy

If I could just retrieve that message  
You know I'd let you go  
If I could just retrieve that message  
You know I'd let you know

'Cause this paradise is only  
For the clinically insane  
And when the stung young men go walking  
We'll be following again

If I could just retrieve that message  
You know I'd let you go  
If I could just retrieve that message  
You know I'd let you know

'Cause bullets shot in celebration  
Always hurtle to the ground  
Where they decimate the living  
Too far away to hear the sound

Hoo

Let it go, let it go, let it go, let it go, let it go, let it go,  
o, let it go, let it go

Hoo

Let it go, let it go, let it go, let it go, let it go, let it go,  
o, let it go, let it go

Hoo

Let it go, let it go, let it go, let it go, let it go, let it go,  
o, let it go, let it go

Let it go, let it go, let it go, let it go, let it go, let it go,  
o, let it go, let it go

Let it go, let it go, let it go, let it go, let it go, let it go,  
o, let it go, let it go

Let it go, let it go, let it go, let it go, let it go, let it go,  
o, let it go, let it go

If I could just retrieve that message  
You know I'd let you know  
If I could just retrieve that message  
You know I'd let you go
