

This Time

Holy Holy

Even with the time you have
You could see it all
This could be the start of something right

This could be the last time we
This could be the call
We could be leaving here tonight

And you feel like I can't let go
And you feel like I can't say no
Can't say no

This time
This time
Feel like I can see the way to run
This time
This time
Feel like I can see the way to run

Lost in your body
Lost in your mind
Lost in the future
Lost in your time

Lost in your body
Lost in your mind
Lost in the future
Lost in your time

And you feel like I can't let go
And you feel like I can't say no
And you feel like I can't say no
Can't say no
Can't say no
Can't say no
Say no
Say no

She said that I been gone for days
I'll be back baby I hope you stay
I won't promise you that I'll change
But I hope I do, we should pray

An angel with me, but I'm in flames
An angel with me, but I'm in pain
Love and loss that's one and the same
Love and loss that's one and the same

I need a
I need a
I need a way out of my head
I need a
I need a
I need a way out of my
I need a
I need a
I need a way out of my head

I need a
I need a
I need a way out of my

She said that I been gone for days
I am back baby I'm here to stay
Sacrifice the life for a change
If I am here, I won't be away
I'll be with you when you're in flames
I'll be with you, I see the pain
Love and loss that's one and the same
Love and loss that's one and the same

I feel like I'm losing something
I feel like I'm letting go
I feel like it's all or nothing
Even when I lose control

And you feel like I can't let go
And you feel like I can't say no
Can't say no
And you feel like I can't let go
And you feel like I can't say no
Can't say no...
