

## Dear Little Friend

Holy Moses

First saw when I was fourteen  
You didn't talk but you were so sweet  
Two big brothers were always beside you  
A happy family in harmony

We often met my friend  
Hours of silence we touched your skin  
You kissed sweet curls  
You never made someone jealous

Dear little friends you had to go  
Hours of fun you gave to me  
Me and my friend we loved you so  
No disease we had to see

So many places we visited  
One dollar - you never asked for more  
You were so brave of incredible strength  
So slim but no one could kill you

Dear little friends you had to go  
Hours of fun you gave to me  
Me and my friend we loved you so  
No disease we had to see

I tore you out but it was too late  
Now you're sticky lying in the dust  
No use to cry I need some help  
I see your brother - same size pure latex

Dear little friends you had to go  
Hours of fun you gave to me  
Me and my friend we loved you so  
No disease we had to see
