

Best Friends

Holychild

Somehow every corner always calls up
Begging me to be the better or the best of
But I'd like to think it doesn't really matter
So let's drop it cause it doesn't really matter

Maybe I'll defy and it will fade out
Growing pale when no contrast can be made out
But I'd like to think it doesn't really matter
Let's just drop it cause it doesn't really matter

I have the best friends
Oh, watch my best friends
We'll never say the things they do
I have the best friends
We can't be boxed in
I'd rather flee than follow suit

Time will never let me take it back there
We can run cause you know that I will not care
Every action points to life beyond the reform
Maybe someday they'll forget about the before
All I want is just to spread all of the best love
Make you happy, make you realize you're the best of
Make you strong enough to do it for the reform
You know someday they'll forget about the before

I have the best friends
Oh, watch my best friends
We'll never say the things they do
I have the best friends
We can't be boxed in
I'd rather flee than follow suit
I have the best friends
Oh, watch my best friends
We'll never say the things they do
I have the best friends
We can't be boxed in
I'd rather flee than follow suit
