

Raining Romance

Holychild

Stop it, hate it, judge it
Let 'em all know
Baby you're above it
Look at your gold
Wonder, whisper, f*ck it
I think you should know
(It's you, it's you, it's you, it's you, it's you)

Try it, taste it, change it
Don't let it go
All your friends are famous
You told me so
Maybe you're the danger
Oh, you gotta know
(It's you, it's you, it's you, it's you, it's you)

I just wanna live forever, baby
Bury me inside the saddest movie

It's all raining romance with you
It's all raining romance with you

Take me, make me, shape me
I'm dying to know
Feel it, wish it, want it
On top of the world

C'mon, let's be honest
We're here for the show
(It's you, it's you, it's you, it's you, it's you)

I just wanna live forever, baby
Bury me inside the saddest movie

It's all raining romance with you
It's all raining romance with you

I just wanna live forever, baby
Bury me inside the saddest movie

It's all raining romance with you
It's all raining romance with you

(It's all raining romance with you
With you, with you
It's all raining romance with you
With you, with you
It's all raining romance with you
With you, with you
It's all raining romance with you
With you, with you)
