

U Make Me Sick

Holychild

I know I'm a weirdo, but you like the way I think
Faking it forever, but we're honest as we sink
Won't you take me out for lunch?
Won't you spoil me undone?

Self-conscious and guilty, walking tired through the streets
I need your attention, need to know just what you see
Won't you eat me out at lunch?
Yeah, just let me go I'm done

You make me so sick
When I see you standing there
Hold me closer, make me care

You make me so sick
When I see you standing there
Won't you leave me, then I'll care

I know I'm a loser, you don't have to play those games
Treat me all the same, you never seem to call my name
I know you need me out at night
I know you smile when I cry

Maybe I'm a sinner, but I don't know other ways
Keep me all together, tie my hands up when I say
Won't you eat me out at lunch?
Yeah, just leave me then I'll punch

You make me so sick
When I see you standing there
Hold me closer, make me care
You make me so sick
When I see you standing there
Won't you leave me, then I'll care
