

Lonely Girl's World

Home Free

In a little while he'll be coming home
He's way past buzzed and he's way too stoned
Thinking she's alone
But she's not at home

She tried but he ain't been listening
Yeah, her patience is wearing thin
But she's getting strong
'Bout to move along

Boy, best be careful
A lonely girl can break your heart

She's going out tonight to find
Something she lost long ago
She's off the map but she'll ease on down the road
Still ain't heard her favorite song
But "Single Ladies" just came on
So she ain't alone but she's a lonely girl
And it's a lonely girl's world

Right about now he'll stumble in
Pass out on the couch and he won't notice
She's moved along
She's turned off her phone
She's done being alone, oh

She's going out tonight to find
Something she lost long ago
She's off the map but she'll ease on down the road
Still ain't heard her favorite song
But "Single Ladies" just came on
So she ain't alone but she's a lonely girl
And it's a lonely girl's world

She wants a man who understands she ain't worth giving up
(Ain't worth giving up)
She needs a man who understands how to fight for love

She's going out tonight to find
Something she lost long ago
She's off the map but she'll ease on down the road
(Ease on down the road)
Still ain't heard her favorite song
But "Single Ladies" just came on
So she ain't alone but she's a lonely girl
(She's a lonely girl)
She ain't alone but she's a lonely girl
Lonely girl

And it's a lonely girl's world
Ooh, lonely girl's world
Yes it is
