

Stop Drop + Roll

There's a two lane getaway, a red hot summer day
Jump into my '65 Mustang, ain't she a pretty thing?
Just like you
It's burning me up, burning me up, burning me up
Girl, tell me what I wanna hear
You're turning me on, turning me on, turning me on
Yeah, baby let's get out of here

Do you wanna wanna, do you wanna wanna go?
Pedal on the floorboard
Lay a little bit of rubber down on this road
Bass bumping on the car door
Got a blue sky, got a fast ride, got all the time in the world, so come on l
ittle girl
Woah-woah woah, all we gotta do is stop, let the top drop, and roll
Na-na-na, na-na-na, na
Yeah, let it roll
Na-na-na, na-na-na, na

We can leave town right now, take it down the interstate
Just get gone, or maybe we could just get lost while the radio plays
Our favourite song
We'll be turning it up, turning it up, turning it up
That's just what I wanna hear
You're burning me up, burning me up, burning me up
Yeah, baby let's get out of here

Do you wanna wanna, do you wanna wanna go?
Pedal on the floorboard

Bass bumping on the car door
Got a blue sky, got a fast ride, got all the time in the world, so come on l
ittle girl
Woah-woah woah, all we gotta do is stop, let the top drop, and roll (yeah)
Na-na-na, na-na-na, na
Yeah, let it roll
Na-na-na, na-na-na, na

Roll down the windows, let your hair blow, let your hair blow
Roll down the windows, let your hair blow, let it all go, let it all go

We can leave town right now, take it down the interstate

Do you wanna wanna, do you wanna wanna go?
