

I figured it out on the ground  
The closer I came to get down  
You need to remember to see  
Nothing to do with the price I'm after

Golden  
Look all around you  
Golden  
I'll be nothing without you in the morning  
Look all around you  
Golden  
Golden

I should've allowed you to breathe  
I'm breaking the mold to believe  
Not a single reply to my letter  
Nothing to do with you killing me slowly

Golden  
Look all around you  
Golden  
I'll be nothing without you in the morning  
Look all around you  
Golden  
Golden

This is meaning without you  
This is black in the snow  
This is love in an alley  
This is slamming the door

Golden  
Look all around you  
Golden  
I'll be nothing without you in the morning  
Look all around you  
Golden  
Golden
