

Believe

Homeshake

Hold on wait a minute hold my chest
Is my heart still beating anybody's guess
I'm a little birdie fell out of my nest
World is slowly tuurning never nothing less

You've got to believe in me
You've got to be easy in your body care free
You've got to believe in me
You've got to believe
Listening to my very own advice
Air is getting chilly open up my eyes
Everybody grining everythings alright
Why'm i being so silly why'm i cold as ice
You've got to believe in me
You've got to be easy in your body care free
You've got to believe in me
You've got to believe
