

# Miss Me

Honey Revenge

Hey its me, don't hate me but I have to cancel today But I miss you so, so much and we need to hang out soon

Can't keep up with how many  
Times that you said its been too long  
If each time I got a penny  
Id be rich enough to belong  
Worlds already so heavy  
Well enough without you leading me on  
Without bearings to keep me steady  
Can't see the pros when I'm feeling the cons

You don't give but you love to take  
You love dimming me out  
Being plastic and being fake  
Are you stuck to the ground?  
Is that why you don't come around

Miss me with the bullshit  
Miss me with the "How you been?"  
Stop saying that you miss me  
It's not making plans if you don't go through with it  
Your words are empty  
What you say you don't really mean  
Got me feeling crazy  
Always saying that you miss me

I get drunk on being petty  
But the way you flake drives me insane  
Don't think you'll ever be ready  
Too see the parts of you that need to change

You don't give but you love to take  
You love dimming me out  
Being plastic and being fake  
Are you stuck to the ground  
Is that why you don't come around

Miss me with the bullshit  
Miss me with the "How you been?"  
Stop saying that you miss me  
It's not making plans if you don't go through with it  
Your words are empty  
What you say you don't really mean  
Got me feeling crazy  
Always saying that you miss me

I'm over it  
You got me tightly wound  
I'll never win  
There's no coming round  
To reason to rhyme  
But you wasting my time  
I got nothing to hide  
So don't ask why  
In retrospect  
I should've learned by now

That I can't forget  
The way you are and how  
You love to deny  
That you're wasting my time  
I got nothing to hide  
So don't ask why

Miss me with the bullshit  
Miss me with the "How you been?"  
Stop saying that you miss me  
It's not making plans if you don't go through with it  
Miss me with the bullshit  
Miss me with the "How you been?"  
Stop saying that you miss me  
Its not making plans if you don't go through with it  
Your words are empty  
What you say you don't really mean  
Got me feeling crazy  
Always saying that you miss me

Miss me with the bullshit  
(Miss me with the bullshit)  
Miss me with the bullshit  
Miss me with the bullshit  
Your words are empty  
What you say you don't really mean  
Got me feeling crazy  
Always saying that you miss me
