

Turn That Finger Around

honeyhoney

You were just a baby When you made yourself a baby's momma Floa
ting on the Great Lakes Crushing beer cans with your man Tour m
other left you stranded Said she couldn't even stand the things
you can

Oh darling Turn that finger around You're the one bringing you
down Turn that finger around now

The neighbors in the hotel lobby Heard your shotgun wedding goi
ng off I'd hate to be a stranger But I know that I am cut from
the same cloth You don't know much about him Only how you fall
around him when he talks

Oh darling Turn that finger around You're the one bringing you
down Turn that finger around now

Wake up every morning Wish you had somewhere to go Had somethin
g to show for it Singing on the sideline Just waiting for the w
ind to blow

Oh darling Turn that finger around You're the one bringing you
down Turn that finger around now
