

Got a lotta noise in my head, don't lose control
Pulled in all directions, don't wanna go
Brought it all on me, I'm not afraid
Let it fall like rain, I won't wash away

Nothin' that you say can talk me outta you
I don't need a reason not to try
'Cause you make me feel
Alive

We don't need, need to have everything
Or spend our lives chasing time
Take what we got and follow me
Let it fall on us, this is hard to find

Nothin' that you say can talk me outta you
I don't need a reason not to try
Say something, one thing, to hold on to
'Cause I want to feel
Alive

Nothin' that you say can talk me outta you
Nothin' that you say can talk me outta you
Outta you
I don't need a reason not to try
Say something, one thing, to hold on to
'Cause I want to feel...
Alive
