

All I Wanted

Honeymoon Suite

1, 2...

On a cold Nevada morning
Clouds fight back the sun
I see forever in the desert light
Thinking 'bout the things that I'd done
Maybe I'm wrong or maybe I was right
But I had my back to the wall
And I, I couldn't stand and fight

Yeah, yeah

All I wanted was a little love, baby
In the middle of the night
I never wanted to hurt anybody
But I had to set it right

Ridin' on these winds of change
Thinking 'bout the things that I've lost
But if nothing is forever
Then I'm damned if I do
And I'm bound to pay the cost

Yeah, yeah

All I wanted was a little love, baby
In the middle of the night
I never wanted to hurt anybody but I
Had to set it right

All I wanted was a little love baby
In the middle of the night
I never wanted to hurt anybody
But I had to set it right

I could be the one to set you free
If ya only stand by me
I could be the one to set you free
If ya only stand by me, yeah

Yeah, yeah

All I wanted was a little love baby
In the middle of the night
I never wanted to hurt anybody
But I had to set it right

All I wanted was a little love baby
In the middle of the night
I never wanted to hurt anybody
But I had to set it right

Just set it right
Got to get it right
Gotta, set it right
Gotta, set it right
