

# Give It All

## Honeymoon Suite

(Give it all, give it all, give it)  
(Got to give it all, give it all, give it)

I've been in love  
I been outta my mind  
I've rolled the bones too long  
And I've crossed the line  
If I lose my way  
I'll find it back again  
But I ain't gonna crawl  
Just to reach the end

I've given' it all  
And never got nothin' back, I've been  
Put against the wall  
Shot down without a chance  
But when you're so close  
You don't let go  
When you're holding on  
To everything you know  
You stand or fall  
You got to give it all

I get the push back  
I ain't second to none  
I got lines on my face  
I've paid for every one

I've given' it all  
And never got nothin' back, I've been  
Put against the wall  
Shot down without a chance  
But when you're so close  
You don't let go  
When you're holding on  
To everything you know  
You stand or fall  
You got to give it all

(Got to give it all, give it all, give it)  
(Got to give it all, give it all, give it)  
(Got to give it all, give it all, give it)

I've given' it all  
And never got nothin' back, I've been  
Put against the wall  
Shot down without a chance  
But when you're so close  
You don't let go  
When you're holding on  
To everything you know  
You stand or fall  
You got to give it all

(Give it all, give it all, give it)  
(Got to give it all, give it all, give it)  
Give it all

(Give it all, give it all, give it)  
(Got to give it all, give it all, give it)
