

## It's Only Love

### Honeymoon Suite

I was sittin' all alone in the darkness last night  
In a room of whispers we used to lay  
Another empty bottle layin' on the floor  
And telling me love ain't coming back here no more

And everybody knows about the pain  
And everybody wanders through the dark  
But they learn to love again

For so long I've been searching and looking for the key  
I live the way I wanna live the way it's gotta be  
But sometime's only love can give you life  
Can turn your world around and cut you like a knife

And everybody knows about the pain  
And everybody wanders through the dark  
But you learn to live again

It's only love  
You can tell yourself  
But you never can deny it  
It's only love  
That brings you back to me  
It's only love  
You can tell yourself  
But you never can deny  
The way that ya feel  
The way ya feel

It's only love  
You can tell yourself  
But you never can deny it  
It's only love  
That brings you back to me  
It's only love  
You can tell yourself  
But you never can deny  
The way that ya feel

It's only love  
You can tell yourself  
But you never can deny it  
It's only love  
That brings you back to me  
It's only love  
You can tell yourself  
But you never can deny  
The way that ya feel  
It's only love
