

## Lemon Tongue

### Honeymoon Suite

Lemon tongue I'm two days hung  
Head of nails and a crusty lung  
Sun daggers and a paper face  
Walk like it matters  
In my kingdom of waste  
Are you really ready for this?

Lemon tongue... two days hung  
Got a head of nails  
And I'm all hi-strung  
Everything is just everywhere  
I walk like it matters  
But I just don't care

Razor throat on the radio  
Talkin' some shit about where to go  
TV spits out lights and views  
Gathers pain and makes it news  
Are you really ready for this?

Don't worry about it  
Ya haven't so far  
Bottom feeder  
In a hundred dollar car  
Ain't gonna whine or kiss the ground  
Whatever goes up, must come down  
Are you ready for this?
