

Lost And Found

Honeymoon Suite

Wear me loose, wear me tight
Wear me out on Friday night
Change your mind, put me away
Saving me to wear another day

And I'm watching you
And I'm seeing you
Slipping away
Further away

Love is lost and found
More than you
But you're not around

Love is lost and found
More than you
But you're not around

Sitting thinking hard of you
Sitting wondering what I'm going to do
I try to turn my mind away
But still my heart keeps stumbling back to you

And I'm watching you
And I'm seeing you

Slipping away
Further away

Love is lost and found
More than you
But you're not around

Love is lost and found
More than you
But you're not around

You're not around

Wear me loose, wear me tight
Wear me out on Friday night
Change your mind, put me away
Saving me to wear another day

Love is lost and found
More than you
But you're not around

Love is lost and found
More than you
But you're not around

Love is lost and found
More than you
But you're not around
