

Other Side Of Midnight

Honeymoon Suite

In the valley tonight lays a coolin' city
Waiting on a setting sun
The midnight moon rising, the night grows cold
We are losing time

We gotta make this a night to remember
We're gonna turn this city inside out

We're gonna run, we're gonna burn the other side of
midnight
Racing silver machines
Ladies in waiting, singin' with the radio
They're just living out their wildest dreams

Racing down this deserted highway, white lines guide us
through the night
Speed under full moon, spinnin' wheels, this is our
night to shine
We gotta make this a night to remind us
We turned this city inside out

We're gonna run, we're gonna burn the other side of
midnight
Racing silver machines
Ladies in waiting, singin' with the radio
They're just living out their wildest dreams

We're gonna run, we're gonna burn the other side of
midnight
Racing silver machines
Ladies in waiting, singin' with the radio
They're just living out their wildest dreams

(GUITAR SOLO)

We're gonna run, we're gonna burn the other side of
midnight
Racing silver machines
Ladies in waiting, singin' with the radio
They're just living out their wildest dreams
