

## Radiant

### Honeymoon Suite

Into the gutter  
The shoe slips  
A cold foot, sweaty head  
Numb fingertips  
Bloodshot eye  
Got a nail in the back  
A broken knee, a loose tooth  
Sentimental, are you in?

Maybe I could shine radiant  
Maybe I am radiant

Begger begger begs my hand  
The bus is late it's all blown up  
No more turns 'cause I turned 'em all  
Liver screamin' the bat is blind  
Got to find a pillow 'cause I need some heat  
Sentimental, are you in?

It gets so cold all us out here we're all the same  
It gets so cold all us out here  
We're all the same in the end

Tell me I don't know the scene, but I know that I do  
Bangin' my head, bangin' my head  
Bangin' my head right against the wall
