

She Ain't Alright

Honeymoon Suite

Just about crazy all the time
Now the none would somehow mind
Well careful now, easy now
We'll push her out too far
So fragile now

She ain't alright
A little crazy
But ain't that all we're looking for
Somebody to love
Somebody to please
For just a little while

She had it all and now it's gone
Now they see it coming but it don't take long
Careful now, easy now
We'll push her out too far
So fragile now

She ain't alright
A little crazy
But ain't that all we're looking for
Somebody to love
Somebody to please

Somebody to love
Somebody to please

She ain't alright
A little crazy
But ain't that all we're looking for
Somebody to love
Somebody to please

She ain't alright
A little messed up
But ain't that all we're looking for
Somebody to love
Somebody to please

Somebody to love
Somebody to please
For just a little while

For just a little while
