

Touch The Sun

Honeymoon Suite

Well I heard all about it
From your stupid friend
How you were getting loose baby
And passed around again
Well I didn't show it
But this jaw's on the floor
Must be outta my mind
'Cause I want you more

Can't keep me away from you
Cause I can' touch the sun

Well I thought about a star
And I thought about a girl
Looked into the trees
And traveled the world
Brought my hand to my face
Just to cover my mouth
Talkin' insane again
Just to figure you out

Can't keep me away from you
Cause I can touch the sun

I'm everything for you
But you don't want it
Everything that's good
