

Why Should I?

Honeymoon Suite

I made a wish you'd make it here today
And through the trouble that gets in your way
You've climbed a mountain, thought you could not climb
25 years and still a friend of mine

And it's alright in the crowd tonight
And it's so loud, and the lights shining bright

So don't say it's over
When the world's upon your shoulder
And don't say it's over
Cause if you don't care then why should I?

And now that you are finally here today
We really don't got much to say
And now and then I think of songs we sing
It fills my world and brings everything

And it's alright in the crowd tonight
And it's so loud, and the lights shining bright

So don't say it's over
When the world's upon your shoulder
And don't say it's over
Cause if you don't care then why should I?

So don't say it's over
When the world's upon your shoulder
And don't say it's over
Cause if you don't care then why
So don't say it's over
When the world's upon your shoulder
We don't need the reasons why
Cause if you don't care then why should I?
