

Girl In The Mirror

Hong Jin-Young

I catch a glimpse of her eyes every day
Sometimes we talk in the hallway
She gives me words of affirmation, ah
Doesn't shy with her affection, ha

Looks good in make up or nothing at all
She wears her scars like souvenirs
Shines brighter than the constellations, ha
What a wonderful creation

She looks just like the girl I wanna be

The way her body moves, I can't look away
She lo-lo-lo-lo-loves herself, don't care what they say
Fifty shades of nude, she's made of glitter
Oh, I think I'm falling for the girl, the girl in the mirror

In the mirror
In the mirror
The girl, the girl in the mirror
In the mirror
In the mirror
The girl, the girl in the mirror

And when I know that she's been feeling low
Even the bags under her eyes are filled with gold
She is perfection, ah
What a beautiful reflection

She looks just like the wonder of my dreams, yeah

The way her body moves, I can't look away
She lo-lo-lo-lo-loves herself, don't care what they say
Fifty shades of nude, she's made of glitter
Oh, I think I'm falling for the girl, the girl in the mirror

In the mirror
In the mirror
The girl, the girl in the mirror
In the mirror
In the mirror
The girl, the girl in the mirror

She looks just like the girl I wanna be, oh

The way her body moves, I can't look away
She lo-lo-lo-lo-loves herself, don't care what they say
Fifty shades of nude, she's made of glitter
Oh, I think I'm falling for the girl, the girl in the mirror

In the mirror
In the mirror
The girl, the girl in the mirror
In the mirror
In the mirror
The girl, the girl in the mirror
