

# HAPPY DAY

Honne

Everything is great  
I got milk in my cup and food on my plate  
A little short on conversation, but that's okay  
'Cause I've been inside for nine months straight  
But now I'm here at my destination  
Yeah

It's all brand-new to me  
Pretty flowers and honey bees  
Oh boy, it makes me go "Wow!"  
The birds are singing me  
Original symphonies  
It's turned my life upside down

It's a happy, happy, happy, happy day  
It's a happy, happy, happy, happy day  
And as long as you are next to me  
I know that it's gonna be a  
Happy, happy, happy, happy day  
I know it's gonna be happy day

Your feet are too big  
But I wish you could wear my shoes for a bit  
To feel these crazy new sensations - they're so lit  
My senses are losing, losing their shit  
They're getting high on the good vibrations  
Hey

Somebody please explain  
Dinosaurs and aeroplanes  
These things are blowing my mind  
Information filling up my brain  
Keeping me so entertained  
Having the time of my life

It's a happy, happy, happy, happy day  
It's a happy, happy, happy, happy day  
And as long as you are next to me  
I know that it's gonna be a  
Happy, happy, happy, happy day  
I know it's gonna be happy day

Know it's gonna be happy day  
Happy, happy, happy, happy day  
Happy, happy, happy, happy day

Know it's gonna be happy day  
Happy, happy, happy, happy day  
Happy, happy, happy, happy day

Know it's gonna be happy day  
Happy, happy, happy, happy day  
Happy, happy, happy, happy day

I know it's gonna be happy day  
Happy, happy, happy, happy day  
Happy, happy, happy, happy day
