

# Take You High

Honne

I guess you already know  
You've already seen it  
Playing over in your mind a bunch of times  
How far would it go?  
You better believe it  
And get the feeling will be going through the night

We must never go backwards  
Cause it don't seem the natural way to go  
And I can't think of a bad word  
To say about you and the things you do  
You better look up cause

I'll take you high  
With me, ain't a limit  
I'll treat you unlike some other guy  
I'll take you high  
They say life is meant for livin'  
Girl stick with me and you'll be alright

So baby you know  
It's already beginning  
When you got eyes on you from all over the room  
Well she's a known girl, so you better give in  
Yeah you can look but you can't taste the sweet perfume

We must never go backwards  
Cause it don't seem the natural way to go  
And I can't think of a bad word  
To say about you and the things you do  
You better look up cause

I'll take you high  
With me, ain't a limit  
I'll treat you unlike some other guy  
I'll take you high  
They say life is meant for livin'  
Girl stick with me and you'll be alright  
I'll take you high, high  
Stick with me and you'll be alright  
I'll take you high, high  
Stick with me and you'll be alright

When do I get to hold you?  
I keep dreamin' of you  
Every single night  
Will I ever get to love you?  
It's all I ever wanna do  
Give me some love and

I'll take you high  
With me, ain't a limit  
I'll treat you unlike some other guy  
I'll take you high  
They say life is meant for livin'  
Girl stick with me and you'll be alright  
I'll take you high, high

Stick with me and you'll be alright  
I'll take you high, high  
Stick with me and you'll be alright

High, high  
High, high
