

Coldspell

Honor Society

Whats with the
Cold shoulder you been given
I never thought I'd see it again
Face to your walls
My body is shivering

I never wanted to get like this
I'm missing all of the heat of your kiss
It feels like time's standing still
In a coldspell, in a coldspell

Violets went red
I still know you're a good girl
You never gave me a reason
To lose faith in you
What you hadn't been saying
Here's more than a mouthful
Slipped his tongue... And inside me
I'm a soldier... I told you

I never wanted to get like this
I'm missing all of the heat of your kiss
It feels like time's standing still
In a coldspell, in a coldspell

Let's not fight over and over
Turn it around now while there's still a chance
Not all the leaves have fell to the ground
Turn it around now we've still got a chance
Make you feel safe and sound

I never wanted to get like this
I'm missing all of the heat of your kiss
It feels like time's standing still
In a coldspell

I never wanted to get like this
I'm missing all of the heat
It feels like time's standing still
In a coldspell
In a coldspell
