

Buzzkill (Before You Say Goodbye)

Hoobastank

You used to be here with me, our bodies here to move in
Now we're afraid and slowly coming undone
Let's rewind to a time that's way less complicated
Without distractions we can be one on one
But I know...

Some things have changed, we're not the same
We took for granted and we threw it away
But remember how, how it used to be
How it used to be

Before you say goodbye I wanna live like we did
If only for tonight I wanna love like we did
Why can't we kiss, I wanna kiss like we did
Before you say goodbye, before you say goodbye

You and I every night would show our true devotion
There wasn't anything that we wouldn't do
But it seems like a dream now going through the motion
Put me back under, back underneath you
But it's true...

Some things have changed, we're not the same
We took for granted and we threw it away
But remember how, how it used to be
And so I'm asking

Before you say goodbye I wanna live like we did
If only for tonight I wanna love like we did
Why can't we kiss, I wanna kiss like we did
Before you say goodbye, before you say goodbye

We can still live like we did
We can still live like we did
We can still kiss like we did
We can still feel like we did

Before you say goodbye I wanna live like we did
If only for tonight I wanna love like we did
Why can't we kiss, I wanna kiss like we did
Before you say goodbye, I wanna love like we did

If only for tonight I wanna love like we did
Why can't we kiss, I wanna kiss like we did
Before you say goodbye, before you say goodbye
