

No one else
Will help us to get through
So by ourselves
We'll know just what to do

We are connected,
We'll never be alone
We walk together,
Forever down that road

You and I
Will share all that we know
So close your eyes
And just let yourself go

We are connected,
We'll never be alone
We walk together,
Forever down that road

And if you fall behind,
and don't know what to do
I promise I'll be waiting there for you...
(for you)...

Follow me into a better day
We'll be alright,
no matter what they say

We are connected,
We'll never be alone
We walk together,
Forever down that road

Road, road, road...
