

True Believer

Hoobastank

You can cut the tension and you don't need a knife
Let's cut to the chase, I'll push you deeper into the night
'Cause I got a feeling you'll show me something I've never seen
There's something about you I thought that I would never believe
Oh no

(Blinded by the night) oh no
(Oh but wrong feels right)

You've made me a true believer
I'm in between her
On my knees and sinking deeper
Underneath her
You've made me a true believer

We can cut the chit-chat and get on with the show
I've got a confession but I think you already know
So how could you blame me for the guilty pleasures I wanna do?
There's something about you
There's something about you

(Blinded by the night) there's something about you
(Oh but wrong feels right) there's something about you

You've made me a true believer
I'm in between her
On my knees and sinking deeper
Underneath her
You've made me a true believer

(Run from [?])
Making me come, make me come alive
([?])
You're in control of me for the night
(Fast and guilty)
But it feels good, everything is right
From the shadows you look like the light
I think I've seen the light

You can cut the tension and you don't need a knife
Let's cut to the chase, I'll push you deeper into the night

You've made me a true believer
I'm in between her
On my knees and sinking deeper
Underneath her
You've made me a true believer

There's something about you
There's something about you
Now show me something I've never seen
There's something about you
There's something about you
