

All I Know

Hoodoo Gurus

What's the time
I'm wide awake
You're in my head
Where've I been?
You're years behind and miles ahead
Anyone could see that you're delicious
But for me I'm decidedly capricious
I'm content to follow blindly
Though you don't know where to go
Hold my hand and jump in with me
I need you is all I know

I'm so far behind myself they've closed the gate
You're the key
Don't you dare let me escape
What was I thinking?
Why am I choosing?
I'm a junkie dependent on losing
I'm content to follow blindly
Though you don't know where to go
Hold my hand and jump in with me
I need you is all I know
I need a friend to help me build a fire
Love drown me in a ocean of desire

What's the time?
I'm wide awake
You're in my head

I'm content to follow blindly
Though you don't know where to go
Hold my hand and jump in with me
I need you is all I know
I'm content to follow blindly
Though you don't know where to go
Hold my hand and jump in with me
I need you is all I know
All I know...
