

## Always Something

Hoodoo Gurus

Always something, never one thing baby  
I wouldn't want to see you suffer, honey  
But this ain't the time for letting go, so hang on in  
What doesn't kill you makes you tougher, don't it?  
You're stronger than anyone I know  
And you can cry if you like  
But don't give up the fight  
Can two wrongs make a right?  
Please stay here one more night

What if the worst of it is over? Finished  
Only it's too soon now to know. Just hold on tight  
There could be rolling fields of clover growing  
Waiting to push up through the snow  
You can swear if you like  
But don't give up the fight  
Only you can decide  
To stay here one more night  
Always something  
It's never one thing, baby

I can't imagine how you're feeling (don't ask!)  
I could be there someday myself, as we both know  
Now's a good time for love and healing. Ready?  
Picture yourself in perfect health  
And you can stare at the light  
But don't give up the fight  
Two wrongs don't make a right  
So stay here one more night  
Always something  
Never one thing, baby  
Always something
