

Hell For Leather

Hoodoo Gurus

Make something happen
If you don't, I will
We might lose a lifetime looking for a thrill
Night is the jungle
A forbidden place
In the neon forest people vanish without trace

Midnight stay tight together

Greased-up and ready
A well-oiled machine
You're my motorcycle, I'm your gasoline
Spark my ignition
You hold the key
Won't you kick yourself in gear and ride away with me?

And I fell like Hell for leather
Hell for leather
Can't you tell it's forever?
Yeah, huh

Trapped in the city
You learn to save your skin
There ain't no human zoo could ever cage us in
Night is the jungle
But don't you lose your way
There's hungry creatures out there looking for some easy prey

And I fell like Hell for leather
Hell for leather
You can tell that it's forever
Forever, forever
Won't you ride away with me?
You can ride away with me?
Ride away with me?
Hell for leather
