

Nothing's Changing My Life

Hoodoo Gurus

Like taking candy from a little girl
It's not hard to make me cry
There is no Santa Claus or Tinkerbell
Making magic in my life
(Can you be content where you are?)
I wanna try everything at least once in my life
(Don't you think you've gone a bit far?)
Well, never mind, in a little while
You know I might change my mind

Nothing's changing my life
I think I'd better change my mind
Nothing's changing my life
I feel a bit left behind
Nothing's changing my life
But they're changing the times
Nothing is changing mine

I have no patience for the common man
But that isn't you or me
The commonplace I've heard of secondhand
And that's where we'll never be
(Don't you think you've gone a bit far?)
I wanna be truly open for once in my life
(When you fall it's gonna be hard!)
I disagree. I've been hoping

If I get the chance I won't think twice
Nothing's changing my life
I think I'd better change my mine
Nothing's changing my life
I feel a bit left behind
Nothing's changing my life
But they're changing the times
Nothing is changing mine

Don't say that it's all I deserve
Someday I'm gonna summon the nerve
And face you unafraid
And call a spade a spade
And not just stand and wait
Expecting a serve

Nothing's changing my life
Nothing's changing my life
Nothing's changing my life
But they're changing the times
Nothing is changing mine

Nothing's changing my life
I think I'd better change my mine
Nothing's changing my life
I feel a bit left behind
Nothing's changing
But they're changing the times
Nothing is changing
They're not changing
