

## Settle Down

Hoodoo Gurus

Ain't it time to settle down?  
I should settle down  
Get my feet on solid ground  
I can't keep chasing my own tail  
That story's getting stale  
So I might hit the dusty trail

There ain't no fun left in this town  
No fun left in this town  
I only get the runaround  
Only get the runaround  
Maybe it's time to settle down?

One by one, my friends have gone  
Yes, they've upped and gone  
They've found new lives on Amazon  
No smiley face emoticons  
I won't see them anon  
So I'm left here to soldier on

The autumn leaves are turning brown  
All the the leaves are brown  
I watch them falling to the ground  
They're piling up on soggy ground  
They know it's time to settle down

I should settle down

Those friendly faces, once adored  
Not many anymore  
They got old so get ignored

There ain't no fun left in this town  
No fun left in this town  
I only get the runaround  
Only get the runaround  
Maybe it's time to settle down?

Ain't it time to settle down?  
I should settle down  
Yes, it's time to settle down?  
I should settle down

I should settle down
