

Somebody Take Me Home

Hoodoo Gurus

You can't smoke in barrooms
What's the difference?
This place is as dingy as before
I hope a friendly face comes to my rescue
And good fortune walks in smiling through the door

Ain't somebody gonna take me home tonight?
Get me out of here
Somebody better take me home tonight

This old barstool's always glad to see me
The whiskey bottle winks and says hello
But we all know know before this night is over
My old friends can't wait to see me go

Ain't somebody gonna take me home tonight?
Get me out of here
Somebody better take me home tonight
Somebody better take me home...

Misery loves company, so they tell you
And needs a sympathetic ear from time to time
But what I need I won't find in this bar room
Cause I'm looking for a true partner in crime

Ain't somebody gonna take me home tonight?
Get me out of here
Somebody better take me home tonight
Ain't somebody gonna take me home tonight?
Get me out of here
Somebody better take me home tonight
Somebody better take me home...
