

## Sour Grapes

Hoodoo Gurus

You get a lot of that now  
You get a lot of that nowadays  
People putting you down  
Busy sucking on sour grapes

They oughta know by now  
Can't they get through their heads  
I am not what they think I am  
They oughta know by now  
Can't they get it through their heads  
I am not what they think?

Even though their sights are low  
I'm keeping my aim high  
Let them go  
Run your own show  
And keep your powder dry

They say it takes all kind  
But to me it seems such a waste  
'cos it's the bitterest kind of wine  
I don't know how they can stand it's taste

They oughta know by now  
I ain't gonna jump through hoops  
Just to please anyone

Even though their sights are low  
I'm keeping my aim high  
They don't know their eyes are closed  
But mine are open wide  
Yeah. Oh, yeah

They oughta know by now  
I ain't gonna lose much sleep  
When they'll wake up to themselves  
They oughta know by now  
I ain't gonna lose much sleep  
When they'll wake up  
When will they wake up?

Even though their sights are low  
I'm keeping my aim high  
Let them go  
Run your own show  
And keep your powder dry
