

## When You Get To California

Hoodoo Gurus

I used to think I was on my own  
I used to think I was fully grown  
Yeah well everyone thinks  
They've got it down cold  
And I guess I'm like everyone  
But that was before I was unknown

You'll know when you get to California  
Darling Clementine, it's a state of mind  
You'll now when you get to California  
Freedom's in the air. It's waiting there

The life that I had back in New York  
Was happy enough, or so I always thought

Yeah, I made a new friend  
Who opened my eyes  
To what's inside of everyone and  
Now I can see I was all talk

You'll know when you get to California  
Darling Clementine, it's a state of mind  
You'll know when you get to California  
Freedom's in the air. It's waiting there  
You'll know when you get to California  
And while the planets turn  
I'm gonna live and I'll learn
