I Own You

Hoods

What's up motherfucker?
In this time of hatred
I choose loneliness
The pain I feel inside
Makes me want to kill you
I own you, I own you
I own you, I own you
The pain you've given me today
All the years of torture, years of abuse
I can't think straight
I just want to kill you
All the pain you've given me today
All the years of torture, years of abuse
And when you see me coming
I've got something for you
I want to watch you die
I want to watch you die
I own you, I own you
I own you, I own you
