

Life

Hoods

It means everything, everything
Just f**kin' died
I laid my trust, my hope
My whole life to be cut short

It means everything, everything
Just f**kin' died
I laid my trust, my hope
My whole life to be cut short

Take me for granted
Use me as you will I fake it all
I'm dead inside my whole life
Every moment, every time I've tried

See you tomorrow, I know
I'll never see you again
For all of you that fade away
You take a part of me

Take me for granted
Use me as you will I fake it all
I'm dead inside my whole life
Every moment, every time I've tried

See you tomorrow, I know
I'll never see you again
For all of you that fade away
You take a part of me

When I don't care
I know I care the most trust
No one give me one more chance
I never wanted revenge that's all, that's left

I never wanted revenge
There's nothing left
I never wanted revenge
There's nothing left
I never wanted revenge, what's next?
