Let me
Let me know

I contacted you first once or twice
But you usually contacted me first
It's so obvious

I wanna tell you I miss you
But it's obvious you'll run away
So I tried to act like I'm not crazy

Just do one thing, I'm tired now
I don't wanna wait anymore
Just do one thing, are you mine or not?
Where is your heart right now?

There's no answer from the start
But I can't accept it, I'm just wandering

I wanna tell you I miss you
But it's obvious you'll run away
So I tried but I can't baby

Just do one thing, I'm tired now
I don't wanna wait anymore
Just do one thing, are you mine or not?
Where is your heart right now?
