If you want me to be with you tonight
Feel the sunshine in the sea
If you want me to be with you tonight
Feel the sunshine in the sea

When I'm with you
This place is like a blue Milky Way
That shines more than the sea
After we get on a boat like getting on a spaceship
(As we endlessly go out)
We're alone in the big ocean
We can whisper sweet love to each other

As I look at the water with dazzling stars floating
(As I look at that light)
Like your mysterious and wandering heart
I want to swim in a deep river

Even if we only walk hand-in-hand
My heart is overwhelmed, feels like it'll explode
After we get on a boat like getting on a spaceship
(As we endlessly go out)
We're alone in the big ocean
We can whisper sweet love to each other

As I look at the water with dazzling stars floating
(As I look at that light)
Like your mysterious and wandering heart
I want to swim in a deep river

If you want me to be with you tonight

Feel the sunshine in the sea
If you want me to be with you tonight
Feel the sunshine in the sea

I always get afraid when I'm happy
Cuz I don't know if these precious moments will last forever
I wanna engrave them deeply in my heart

As I look at the water with dazzling stars floating
(As I look at that light)
Like your mysterious and wandering heart
I want to swim in a deep river

If you want me to be with you tonight
Feel the sunshine in the sea
If you want me to be with you tonight
Feel the sunshine in the sea
