Ooh I feel so bright

I thought about you even more
Because the sun felt so warm baby
When I'm alone, right next to me
I still feel your warmth
Even if the world gets dark
We shine

You are my Sunshine
Sunshine, when it shines
It's always you
You're so cozy, even more than those clouds
Ooh I feel so bright

We have a good time
Good time
When we're together
Feels like we have a world that's bigger than anyone else's
Ooh I feel so bright

I can feel what you want
When I'm in your arms
Today, it'll be me, tomorrow it'll be you
We're each other's baby

When I'm alone, right next to me
I still feel your warmth
Even if the world gets dark
We shine

You are my Sunshine
Sunshine, when it shines
It's always you
You're so cozy, even more than those clouds

Ooh I feel so bright

We have a good time

Good time

When we're together

Feels like we have a world that's bigger than anyone else's

Ooh I feel so bright

Even if I think about something else when we're walking hand-in-hand

Even if they say guys change when time passes

All day, I wanna place you on my left shoulder

I wanna hold you till you fall into a deep sleep

When I'm holding you, it ends the wanderings of my day that felt like a big wave

I'll shine on you, brighter than the sun

Sunshine's like my love for you

I lack in many ways but I'll keep trying

So there won't be sadness on your face

I'll shine on the darkness that bothers you

I'll shine on you, baby, no more nightmares

You're my earth, my universe, my world, forever be with you

You are my Sunshine

Sunshine, when it shines

It's always you

You're so cozy, even more than those clouds

Ooh I feel so bright

We have a good time

Good time

When we're together

Feels like we have a world that's bigger than anyone else's

Ooh I feel so bright
