

# Get This Money

Hooligan Hefs

(Ayy, Colcci, that's wavy)  
(Yo, L.S., where you at?)  
Ayy, what was that quote?  
It went somethin' like  
The girl you love can wake up and love another man tomorrow  
But a hundred-dollar bill (Kuda)  
Will still be a hundred-dollar bill (Yeah)

Let's get this money, baby  
No risk, no reward  
You gotta be down for the cause  
Let's get this money, baby  
You either want it or you don't  
Make it happen 'cause no one else won't (Yeah)  
Let's get this money, baby  
Yeah, there ain't a cheat code  
Rent's due, grind for everything that's owed  
Let's get this money, baby  
I don't grind to shine  
I grind to provide for me and mine

Yeah, I don't grind to shine, but I shine anyways  
I could show you how to stack, get it many ways  
We don't pick and choose, yeah, we fight anyway (Mhm)  
And if she built like Iggy, then I go her any day (Yeah)  
Game advice or sympathy, you gotta make it happen  
I let results do the talkin', I'm not into chattin'  
Tell the labels up the price, now we double platinum  
It's not how you start 'cause I'm overlappin'  
There's not much to it, you either want it or you don't  
And I stay on my grind, 'cause I fear bein' broke  
Been at the bottom a few times, now I give the kids hope  
The money stay on my mind, now I'm always on go  
Slow progress is still progress (What else?)  
Still outside, haven't been home yet  
Don't need handouts, I earned my check  
If it don't make money, then it don't make—

Let's get this money, baby  
No risk, no reward  
You gotta be down for the cause  
Let's get this money, baby  
You either want it or you don't  
Make it happen 'cause no one else won't (Yeah)  
Let's get this money, baby  
Yeah, there ain't a cheat code  
Rent's due, grind for everything that's owed  
Let's get this money, baby  
I don't grind to shine  
I grind to provide for me and mine

Another day, another dollar (Mhm)  
Another fool getting broke into thirty-six ackers (What else?)  
I'm a businessman without no collar  
If rap didn't work, trust me, I'd be the one to rob you (Yeah)  
But this, but this, but this music paying off, still sitting at the top  
I can give her that cost and still make prof'

Forget what it was 'cause we up right now  
This all day shit, we ain't throwin' in the towel  
Guns go baow, haters like, "How?"  
When you swimmin' with sharks, know how to move 'round  
Talk of the town, talk is for clowns  
If you say it, then we do it, we ain't here to fuck around  
If you ain't takin' risks, then don't come with (Let's get it)  
Load the clip and bang that shit (Let's get it)  
Stand on biz, we two feet in  
Stay ready all the time, but for now, man

Let's get this money, baby  
No risk, no reward  
You gotta be down for the cause  
Let's get this money, baby  
You either want it or you don't  
Make it happen 'cause no one else won't (Yeah)  
Let's get this money, baby  
Yeah, there ain't a cheat code  
Rent's due, grind for everything that's owed  
Let's get this money, baby  
I don't grind to shine  
I grind to provide for me and mine (ilir808, shit)
