

# No Effect

Hooligan Hefs

Never forgive, never forget  
Twisted thoughts run through my head  
They used to diss, now show respect  
Still show 'em disrespect  
Not that type to pout and pose, but when I pose, I pose a threat  
Say it how it is, my mouth has no filter, still yelling no effect  
Don't sit on the fence, I play offence  
Playing for keeps, I'm till the end  
Send for me, I'm Heaven Sent  
Fuck him, send him off for 10  
I try not to reoffend, but if it kicks off, front lining  
I was in prison, trapping in the system  
Had those fiends in the pod smiling  
They know I'm OC when I sit in court  
Never half-hearted, no remorse  
Can't take the loss, yeah, I'm a bad sport  
I don't play soccer, but I shoot and score  
Can't handle a loss, yeah, I'm a bad sport  
I don't play soccer, but I shoot and score

No effect, they know I do it all day, they know I do it all day  
No effect, they know I do it all day, they know I do it all day  
No effect, they know I do it all day, they know I do it all day  
No effect, they know I do it all day, they know I do it all day  
No effect  
No effect  
No effect, they know I do it all day, they know I do it all day  
No effect, they know I do it all day, they know I do it all day  
No effect, they know I do it all day, they know I do it all day  
No effect, they know I do it all day, they know I do it all day  
No effect

I'm all day, never fatigued  
No surrender, no retreat  
Pray for the weak when they turn cheek  
Pray for me when my actions speak  
No effect, soldier on  
Lord forgive me for my wrong  
Yeah I repent, then I repeat  
They know about me and where I'm from  
And who is who  
Not MJ, but I bust them moves  
When I come through, it's like no-one move  
Boys in blue wanna hear the truth  
Cuff my wrist, no co-accused  
Know I'm loose, got nothing to prove  
Talk about me when I'm not in view  
Put me and them in the same room  
(Take em off mute)  
Cause I refuse  
To show mercy, step to the plate  
You're not worthy, afraid of what?  
My hands are dirty, I leave them drenched  
If they feel thirsty  
They lock me up, it's no effect  
I do it all day, it's no effect  
I go to war like I'm a vet

And let it bang, no second guess

No effect, they know I do it all day, they know I do it all day  
No effect, they know I do it all day, they know I do it all day  
No effect, they know I do it all day, they know I do it all day  
No effect, they know I do it all day, they know I do it all day  
No effect  
No effect  
No effect, they know I do it all day, they know I do it all day  
No effect, they know I do it all day, they know I do it all day  
No effect, they know I do it all day, they know I do it all day  
No effect, they know I do it all day, they know I do it all day  
No effect
