

## Off Guard (Freestyle)

Hooligan Hefs

They could never catch me off guard  
Even if I don't got that, I got heart  
I do what I do because I finish what I start  
To be honest I would rather mine eat then starve

All those traps that we took apart  
I remember those times when we did it hard  
Only lasted till we flying the mask  
Call us the GST the way we took charge

Late night missions, getting home early  
Sleep through the day then the night back to lurking  
Highway to hell no exit no turning  
No 9 to 5 but we'll still earning, we'll still earning

Had a lot to keep learning  
All of our bridges were burning  
I know there burning  
But if you wanted it back then you know the guns were bursting

Shots were sending, the drama's never ending  
Try off me better hope it ends me yeah cause snoopin  
On the news your trending one  
Of us in court trial its pending

Mums praying I get direction brah  
I don't know where I'm heading  
Pigs slide through you know I'm jetting  
My crews known for that 2-11

Know I do it all day  
All these gronks making pave  
What have they done to be on this stage  
Tee up a RIP and swing em out the way

Couldn't care less if I had something to say  
Full lid dressed I got that on my waist  
Time and place I got time today  
Fold all the way and go all the way

Labels wanna speak to me about music  
I still spin out on how did I do this  
Still got the .45 ready to use it  
Don't pull it out if you're not gonna use it

One ball runner is my type of army  
Come to the crunch they fight like origami  
I deep fried a chicken like I ordered a parmi  
I still making flips like I'm cooking a barbie

Everyone around me share the same struggle  
All of my equality and non of my buckle  
All of these dogs that were leaving me in puddles  
Don't matter how he got it, just respect the hustle

Resume, check than I ride for the C  
Police taped it off cause my driller caused a scene

Had the little dog busting shots for the team  
Undefeated if you know what I mean

Don't beef on the net for everyone to see  
Just know my driller putting in OT  
Free my brothers, free the OC we just  
Lost 2 soldiers, R.I.P

We're good anywhere outside or in prison  
My brothers gave half their life to the system  
I still hold it down but it still feels different  
We know who's about it and who isn't
