

Bad Weather

Hooverphonic

You can tell summer is gone by the smell of leaves
Lying around as a toy for the autumn breeze
Things never change no matter how hard you do say please
Nights are getting cold, soon it will freeze

Oh bad weather
Oh dark weather
The rain pours hard
Can't see a thing
Erasing the word "together"

Grass is the only thing that's remaining green
Black bears are preparing for their winter sleep
All geese are flying to far away seas
Days are getting short leaving more time to read
