

Dirty Lenses

Hooverphonic

So you take your chances
Look thru dirty lenses
Unintended consequences
We don't need your ugly fences
We'll make our own way out of here

Start a car
Get away
There's so much you could see today

If we don't escape
We'll turn into
Everything we
Hate but tell me do
We even have a chance?
If we don't escape
The things we do
Won't make a difference
It's just me and you
& all our best laid plans

So we've run right off the map
Get away from all the traps
Inevitable consequences
Living only present tenses
Only living for the now
