

Don't Think

Hooverphonic

There's nothing between lunch and dinner
Don't think about the past
Don't think about what could have been
'Cause you'll finally get depressed
Don't think about the future
'Cause you'll end up totally stressed
So try to live in the now
Don't think about the mess
Just sing

Don't think, just dance and sing
Don't think, just sing

There's a void between lunch and dinner
Don't think about the past
Don't think about what didn't last
'Cause you'll end being a mess
Don't overthink the future
'Cause you'll drown in a lake of stress
So live in the now and you'll find out
You are really blessed
Just sing

Don't think, just dance and sing
Don't think, just sing

I had no healthy lunch
I ate a whole bunch
And then I slept 'cause I was lacking punch
For dinner I had a burger or two
And then I realised
I was eating 'cause I was missing you
There's nothing between lunch and dinner
But what can I do
I'm living in the now, I try to keep my cool
'Cause even in this mess, I have to confess
That I'm truly blessed
So don't think, no stress
So don't think, no stress

Don't think, just dance and sing
Don't think, just sing
